Education

Medi-caps University, Indore, Madhya Pradesh **Aug. 2019 – May 2023**
Bachelor of Technology (Computer Science and Engineering) **CGPA : 8.58**

ST. Anna's Convent, H.S. School, Borgaon Bujurg **Jul. 2017 - March 2018**
Physics, Chemistry, and Mathematics **Percentage : 88%**

Technical Skills

Programming Languages: Javascript, Typescript, JAVA, C/C++
Primary skills: React.Js, Redux, Redux-persist, Context API, Next.Js, SSR, Micro Frontend Architecture, TailwindCss DSA, Git, Figma, Amcharts, Mapbox, Chainlit, Upsolve, HTML, CSS, RDBMS, SQL, Jest Enzyme, TestCafe, Reflect automation.
Secondary skills: AWS, Node.Js, Express.Js, MongoDB atlas, UiPath, MS Power Automate, Supabase, Appwrite, Firebase.
Software & Tools: Github, Postman, Bitbucket, Linear, Jira, Confluence, CursorAI, Sentry, Stoplight, Notion.
Domains: Logistics, E-commerce, Health Insurance, Document Processing

Experience

Senior Software Engineering Specialist | Company: Valuelabs **Feb 2024 – Present**

- Designed and developed highly responsive, pixel-perfect UI using modern frameworks like React, Next.js, and Tailwind CSS, ensuring full compliance with client specifications.
- Designed and implemented Micro Frontend Architecture to modularize large-scale applications for improved scalability and maintainability, while also collaborating closely with cross-functional teams and clients, gaining strong exposure to stakeholder communication, requirement analysis, and effective problem-solving.
- Implemented efficient API integrations using Redux and React hooks, optimizing state management, performance, and scalability while enabling seamless data flow.
- Developed dynamic, interactive data visualizations, including map-based views and analytical charts, ensuring cross-browser compatibility and enhancing decision-making.

Software Engineering Sepcailist | Company: Valuelabs **Jan 2023 – Jan 2024**

- Refactored legacy code by converting class-based components to function-based components, enhancing performance and maintainability.
- Developed Proof of Concepts (POCs) and production-ready applications using React, demonstrating innovative solutions to business challenges.
- Automated workflows using UiPath and MS Power Automate, improving process efficiency and reducing manual effort.
- Continuously learned and adopted new technologies, staying up to date with modern Tech.

Technical Projects

CONTXT - Link | *Javascript, React Js, Redux, Tailwindcss, Auth0, Mapbox, Chainlit, Amcharts, Upsolve, Reflect.*

- Developed a highly precise and visually consistent UI based on client requirements, seamlessly integrating APIs with Redux for efficient state management and performance optimization.
- Implemented secure authentication and authorization workflows using Auth0, enabling role-based access control (RBAC) for users, enhancing security, and ensuring compliance.
- Developed interactive data visualizations with amCharts and integrated Mapbox for advanced geospatial analysis.
- Automated UI testing with Reflect, TestCafe, Cypress, and Jest, ensuring cross-browser compatibility, responsiveness, and regression stability.

Inter IKEA Systems B.V. & Decathlon sports india - Link | *React, Tailwind, Context API, Bootstrap*

- Developed and optimized POCs to assess feasibility, driving innovation for production implementation.
- Built and integrated a fully responsive chatbot with backend APIs, ensuring real-time, accurate responses.
- Redesigned and enhanced UI/UX for multiple screens, improving accessibility, performance, and user engagement.
- Implemented performance optimizations, reducing load times and increasing application efficiency.

Personal Projects - Portfolio | SwiftPay | Nike Shop | Coffee Shop

- Developed a 3D interactive portfolio using Three.js, React, and Tailwind CSS, featuring a dynamic UI, experience showcase, project highlights, and a contact form for email communication.
- Built a Nike Outlet e-commerce platform with React.js, JavaScript, Tailwind CSS, and Redux, showcasing a curated collection of shoes and summer editions with an intuitive UI.
- Created a fully responsive Coffee Shop website using Aeternity UI, Next.js, and Server-Side Rendering (SSR), ensuring fast performance and a visually appealing user experience.
